E-COMMERCE SYSTEM — UI PRESENTATION

SYSTEM OVERVIEW

"This project represents the user interface of an E-Commerce web system, designed to offer users a smooth and intuitive shopping experience.

The system includes core features like product browsing, account management, cart operations, wishlist, and secure checkout."

Learn More

KEY FEATURES

- Product Browsing: Easily explore all available items by category.
- Search & Filters: Quickly find products using keyword search and filters.
- Shopping Cart: Add, remove, and update items in the cart.
- Wishlist: Save favorite products for later.
- User Account Management: Sign up, log in, and manage personal details.
- Secure Checkout: Enter shipping and payment info to place orders.
- Product Details Page: View product descriptions, pricing, and images.
- Dropdown Menus: Navigate easily through categories and account options.
- Contact Page: Reach out for support or inquiries.

USER BENEFITS

- **Simple Navigation:** Users can easily find what they need.
- **Fast Shopping Experience:** Fewer steps to complete a purchase.
- **Mobile-Friendly Design:** Works well on phones and tablets.
- **Personalized Experience:** Wishlist and account features make it more personal.
- **Clear UI**: Clean layout reduces confusion and improves usability.
- **Secure & Trustworthy:** User data and orders are protected.
- **Support Access:** Easy way to contact support when needed.

SYSTEM STRUCTURE

Pages & Modules Overview

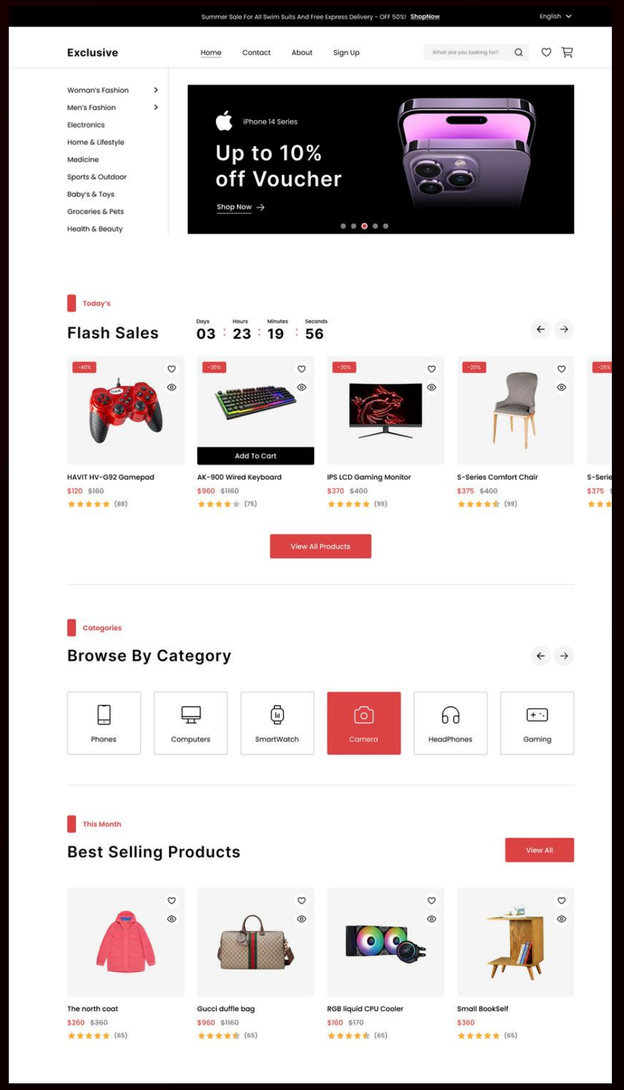
"Here are the main pages/modules included in the design:"

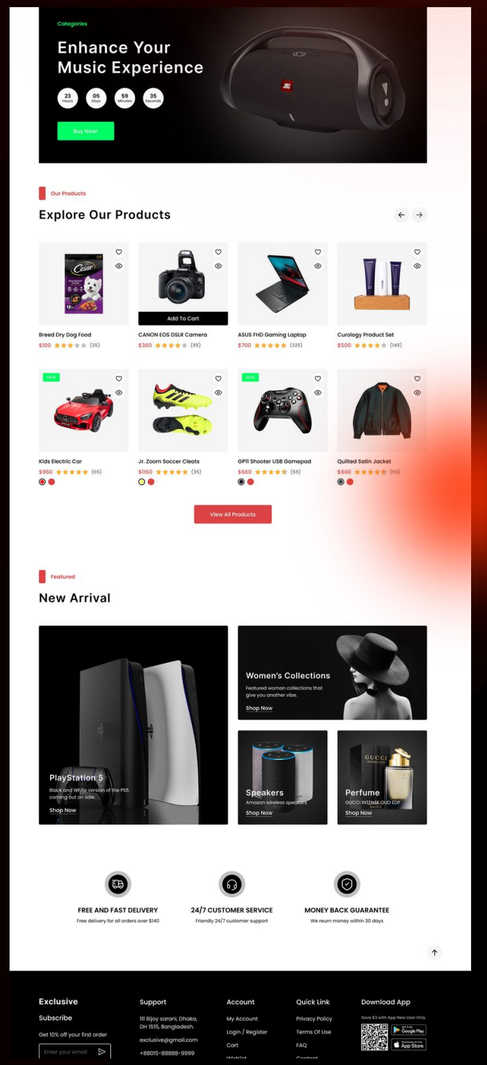
- Home Page
- Product Details
- Cart
- Checkout
- Account (Login, Signup, Dropdown)
- Wishlist
- About & Contact

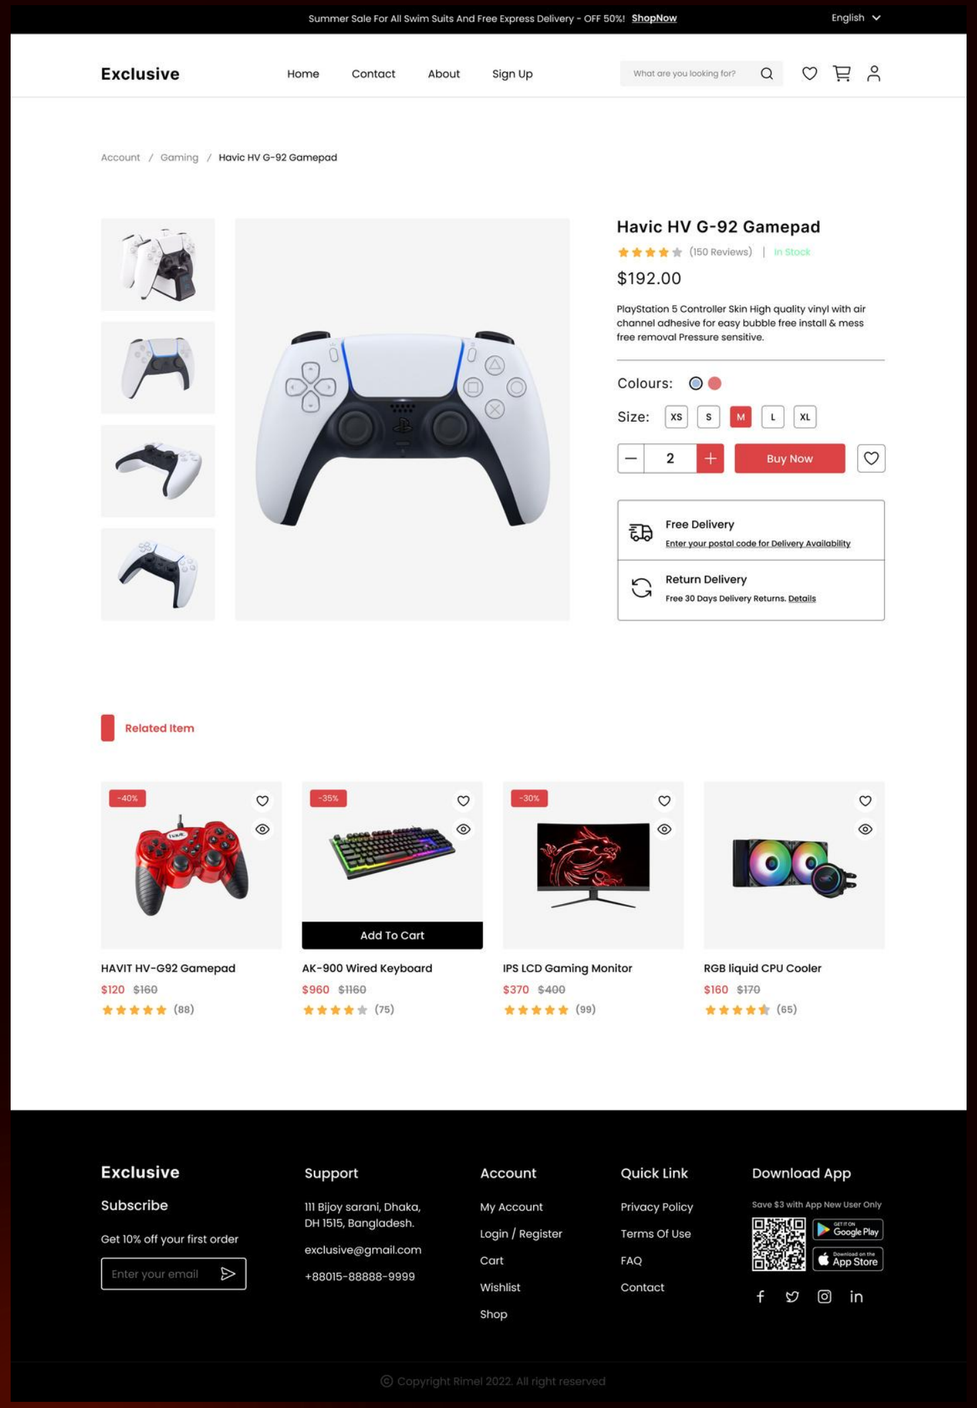
01

HOME PAGE

"This is the main landing page that displays featured products, categories, and promotional banners.
The design is clean, modern, and easy to navigate."







02

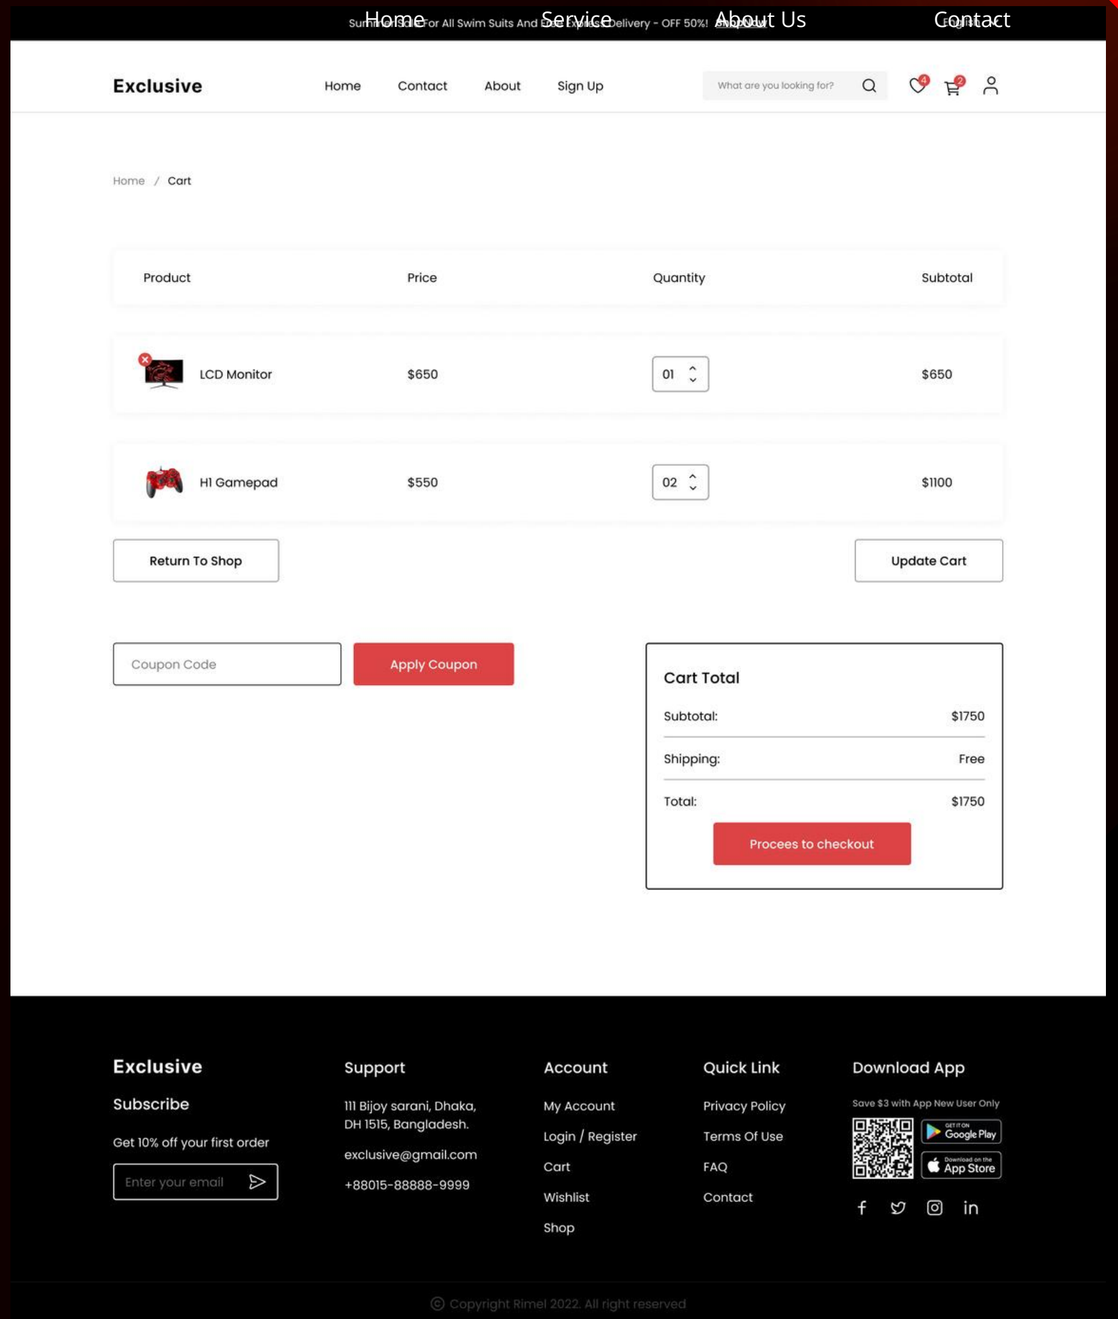
PRODUCT DETAILS PAGE

"This page provides detailed information about a selected product.
Users can view images, descriptions, pricing, and add items to the cart or wishlist."

03

CART

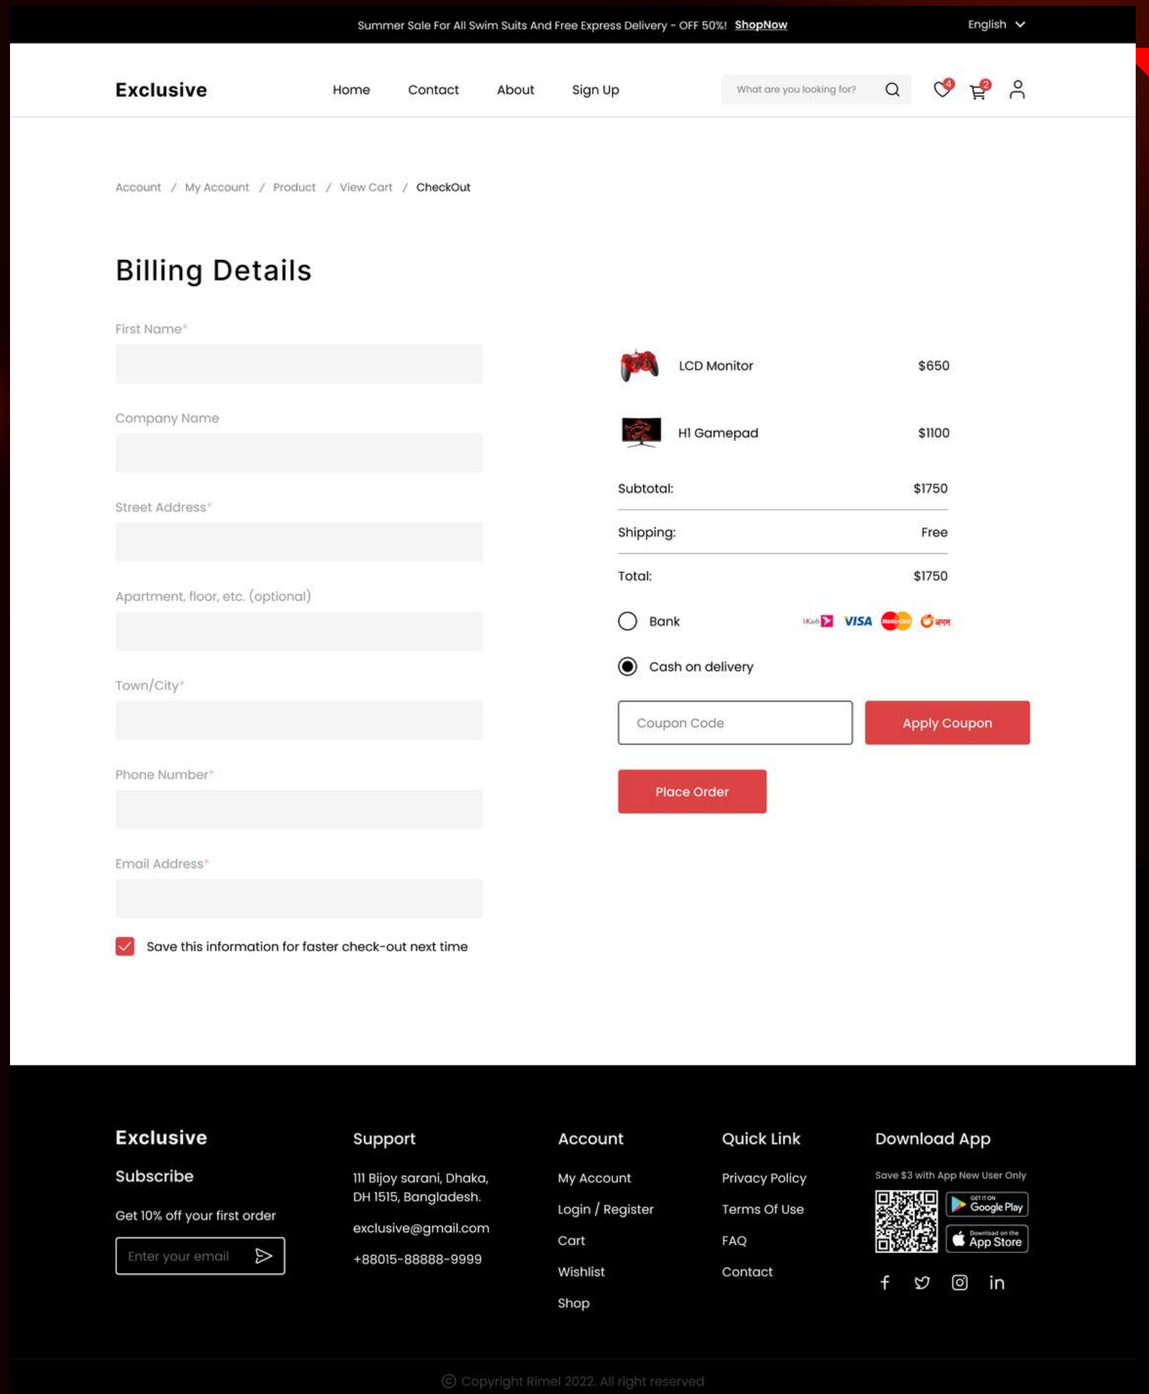
"This page shows all the items added to the shopping cart.
Users can update quantities, remove items, or proceed to checkout."



04

CHECKOUT

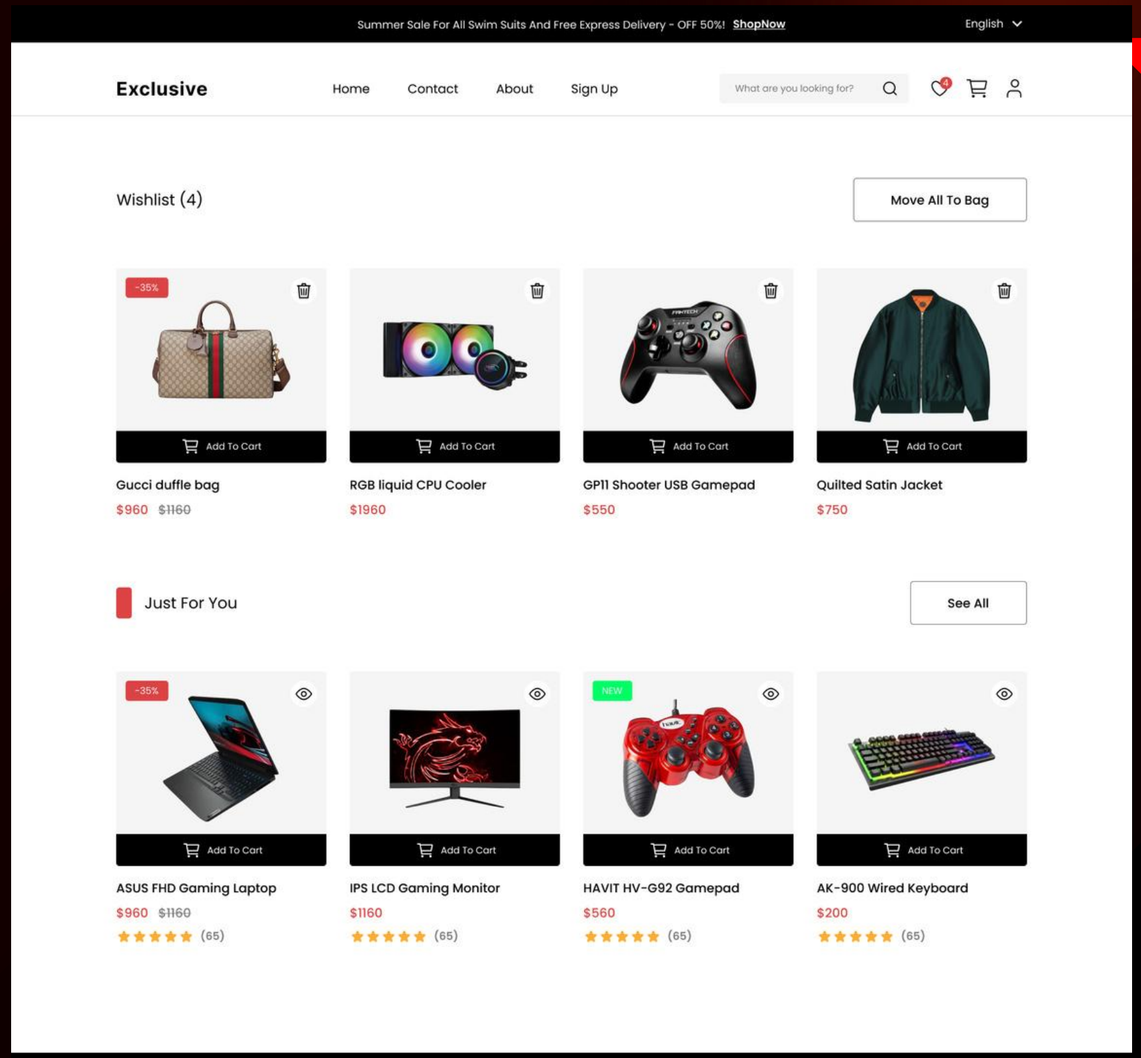
"On this page, users enter their shipping details and payment info to complete the purchase.
The layout is designed to be simple and clear to avoid confusion."

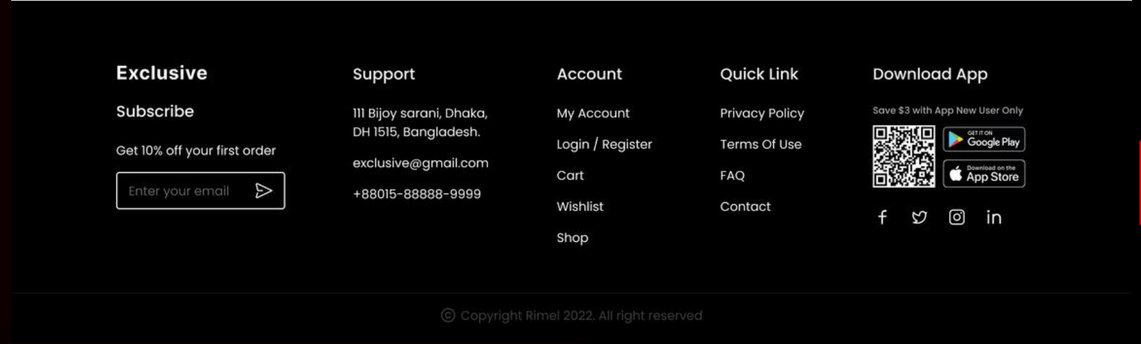


05

WISHLIST

"Users can save items to their wishlist for future purchases.
This helps them keep track of favorite products without immediate buying."

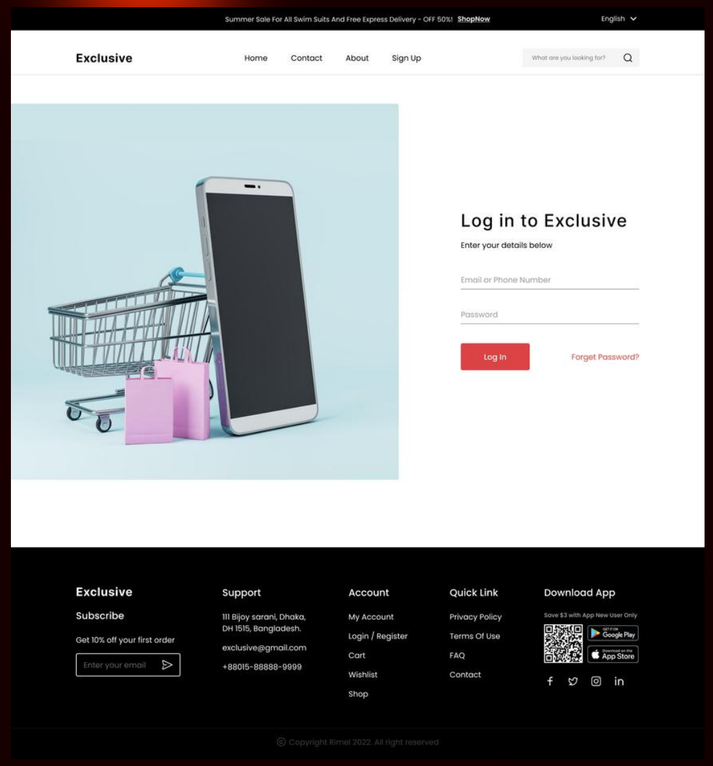


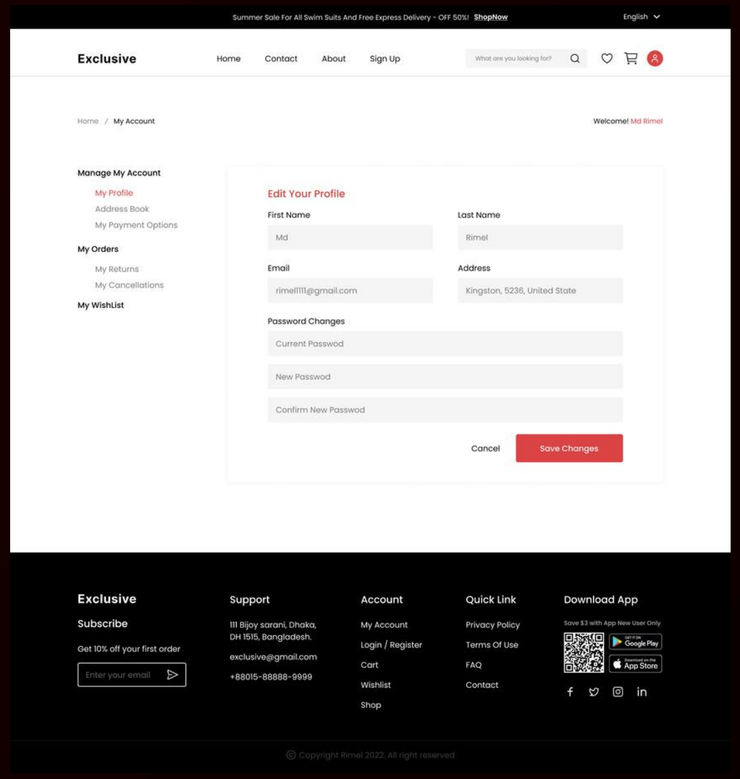


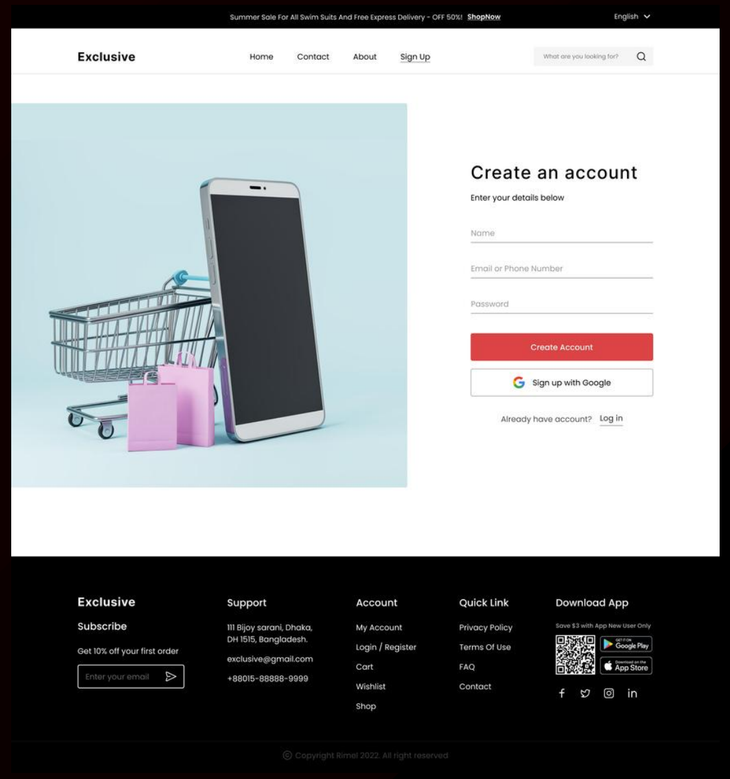
06

ACCOUNT & AUTH PAGES

"These pages handle user authentication and profile access. Users can register, log in, and access their account options easily from the top navigation."







07

ABOUT & CONTACT

"The About page introduces the store's background, while the Contact page allows users to reach customer support or send inquiries."
